

Agricultural, Equestrian and Veterinary

With its incredibly hygienic, high-tensile and low-weight properties, stainless steel mesh is an indispensable and invaluable resource within the farming, equestrian and veterinary industries.

Multimesh UK
making wirework for you

Agricultural, Equestrian and Veterinary

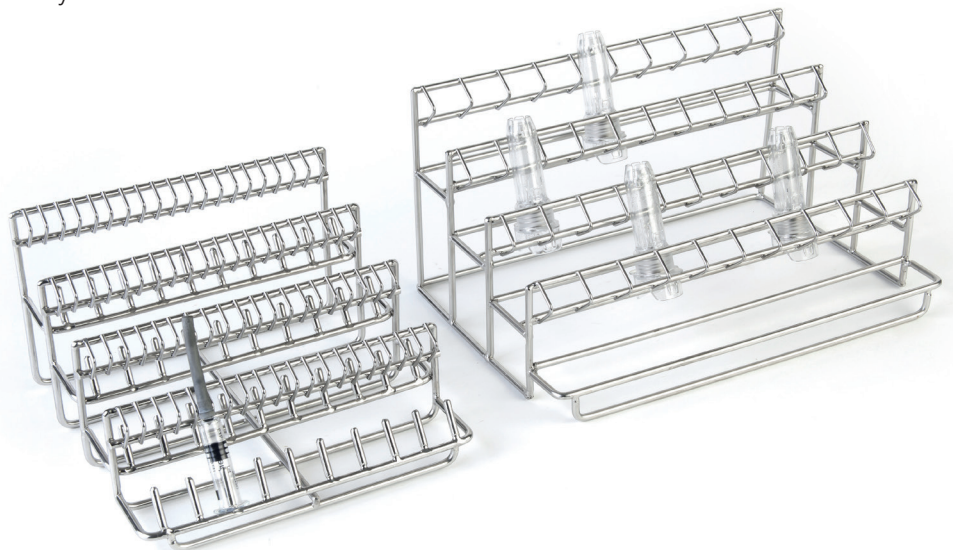

In order to help these industries make best use of stainless steel mesh and benefit most from its versatility, we design, manufacture and deliver a wide range of items – both standard and bespoke - including:

- Combine harvester threshing screens
- Hay racks
- Horse head guards
- Storage racks
- Gratings
- Gates
- Pet cages
- Grills

The quality and integrity of our work means our products are in demand – and in use – across the globe, from the Cotswolds to the Canadian prairies, so we manufacture and stock all year round, guaranteeing spare parts are available to coincide with any harvest season anywhere in the world.

Multimesh have been a supplier to us for over 20 years, constantly delivering to the required schedule and quality. We look forward to the next 20 years of Multimesh being a valued supplier.
