

## Catering

The Multimesh range of Catering Baskets, Fryer Baskets, Baking Racks and Cooling Trays provide heat resistance, hygiene and high durability which are key to the catering sector.

Furthermore, stringent safety, health and food hygiene regulations mean the demands of this industry are even more exacting, and we're proud to say our products have the capability, durability and reliability to match.

We offer both standard stock products and bespoke design/manufacture of:

- Frying baskets
- Baking racks
- Cooling trays
- Henny Penny baskets
- Trolleys
- Skimmers
- Specialist, bespoke equipment

## Catering

### Fryer Baskets

Our frying baskets are designed to withstand tough demands, for daily use. The handles have a heat resistant coating for extra safety. Most fryers can be manufactured to fit in our UK based factory from Stainless Steel 304 or 316 grade of wire, polished or self-colour.

- Long reinforced coated handles make our fryer baskets easy and safe to hold.
- Strong rear hooks for basket suspension

### Baking Racks

Our Stainless Steel baking trays are all handmade to your individual requirements. They are available in Stainless Steel, SS304/SS316 or MS Chrome plated. Wire Trays are an essential tool of the catering business, an industry standard for baking, process, and cooling. Our wire racks are an invaluable sustainable product.

### Cooling Trays

Cooling trays and racks come in all shapes and sizes. We are happy to manufacture to customers' bespoke specifications. They are available in Mild Steel Chrome Plated, Stainless Steel 304 grade and Stainless Steel 316 grade.

### Catering Trolleys

Multimesh UK manufacture standard and bespoke sized trolleys for supermarkets, smoking houses and general catering use. Our range includes:- lockable cabinets, open trolleys, gastronome trolleys, sizes to suit your requirements. Please ask for further details. All are produced in Stainless Steel.

### Specialist Bespoke Equipment

Stainless Steel is our speciality, wire gives us many possibilities, whatever it is you need, the Multimesh Development Team can help you design and then make the product you desire. Please call to discuss your requirements.

### Smoking Wires/Smoking Trays

Predominantly used by traditional fish smoking houses but our smoking wires have a wide range of uses. Smoking racks are produced in different sized apertures to suit the customers' requirements. Always manufactured in stainless steel, some customers prefer to have their smoking wires coated but this is not a necessity. Please contact us to discuss your needs.
