

Information Display

Here at Multimesh we work with the industry's leading stockists and suppliers to produce a range of standard and bespoke metal mesh display systems which answer those needs perfectly. With optional plastic-coated finishes available for added safety or style, our range includes:

- Free-standing display racks
- Rotational display racks
- Mountable leaflet holders and racks

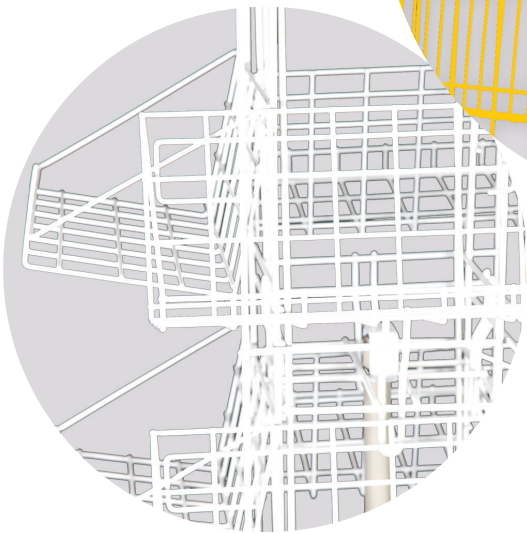

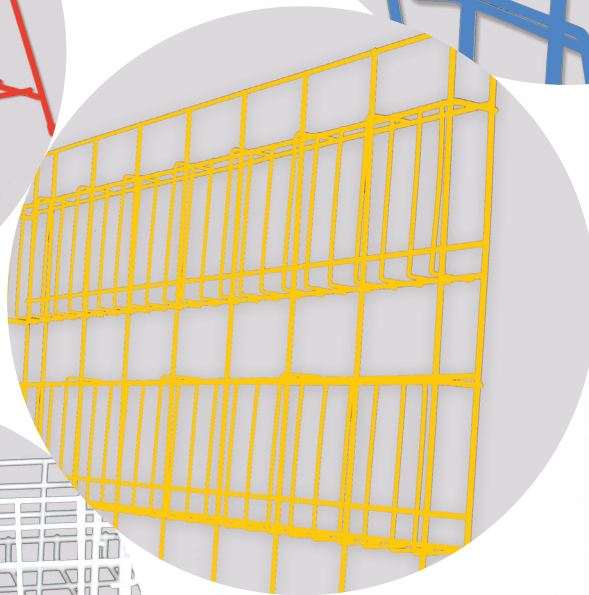

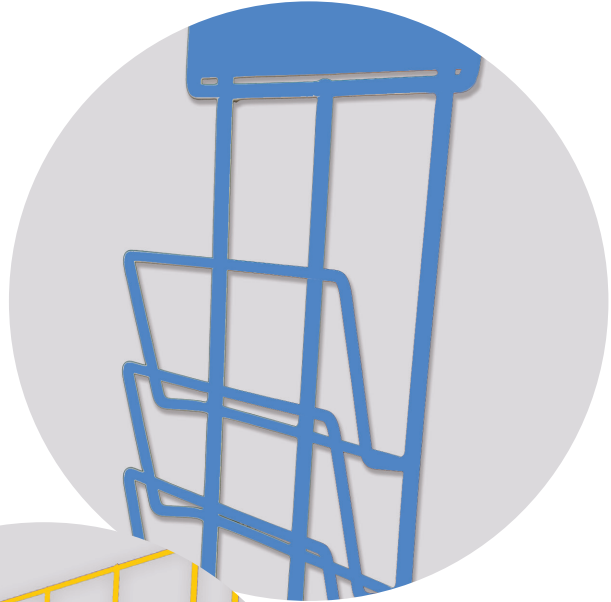

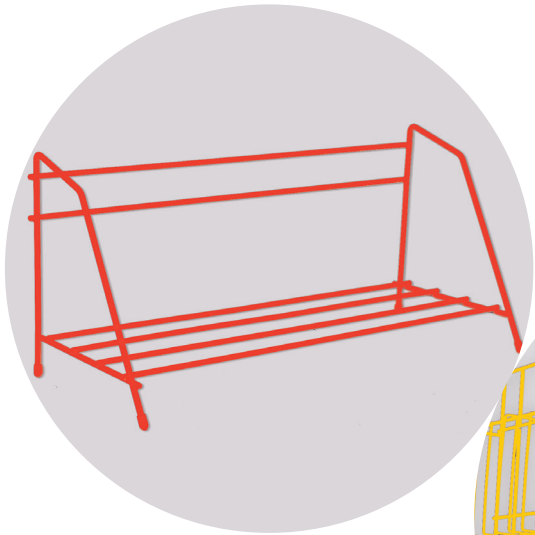

Multimesh UK
making wirework for you

Information Display

From lightweight leaflets to bulky brochures and books, the challenge for schools, libraries and exhibitors alike is how to display such information in ways which are compact, clear, safe and simple.
