

Perforated and Expanded Metal

In addition to our custom design service, Multimesh also stock a high quality range of both perforated and expanded metal sheets which are available for rapid delivery.

Perforated metal

Available in mild steel, stainless steel and aluminium options, our panels are available with a choice of hole size, pitch and thickness to suit all requirements. In addition, panels can also be cut-to-size and packaged in a way that suits each individual customer's needs.

All Sheets are 2000mm x 1000mm

Hole Dia (R) mm	Pitch (T) mm	Open Area %	Sheet Thickness in mm						
			0.50	0.75	1.00	1.25	1.50	2.00	3.00
1.50	2.50	32.70	•	•					
2.00	3.50	29.60		•	• •		•		
3.00	5.00	32.70			• •		• •	•	• •
3.00	6.00	22.70				•			
4.00	6.00	40.30			•		•	•	
5.00	7.00	46.30			•		•		
6.00	9.00	40.30			• •		• •	•	• •
8.00	12.00	40.30					• •	•	
10.00	15.00	40.30			•	•	• •	• •

Perforated and Expanded Metal

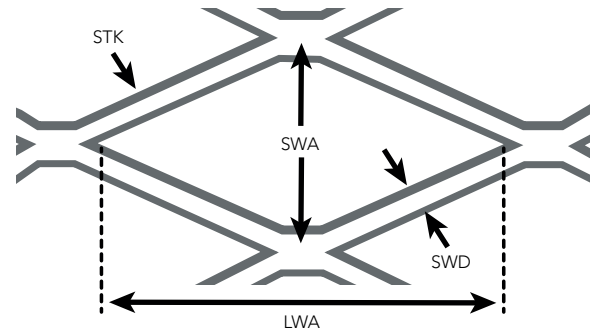

Expanded metal

Our versatile range of expanded metal is available in mild steel, stainless steel, aluminium, zintec, titanium and nickel alloys – with your choice of coating or finish. Sheets can be cut to size and are available in various coil thicknesses, in either raised or flattened mesh. Various tolerances are also available, and all deliveries are packed according to customer requirements.

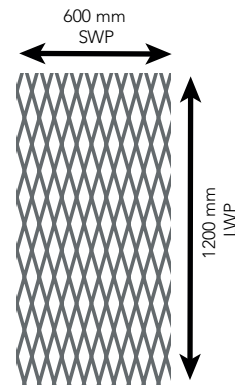

Order requirements:

Includes:

- Ref no or mesh specification
- Raised or flattened mesh
- Mesh orientation (see illustration)
- Panel size
- Tolerances
- Material type
- Quantity required
- Coating or finish
- Packing requirements

SWD = Strand Width
 STK = Strand Thickness
 SWA = Short Way Aperture
 LWA = Long Way Aperture

SWP = Short Way Panel
 LWP = Long Way Panel
