

Smoking Ovens – Wire Racks and Trays

The popularity of food smoking is increasing year on year as is the demand for smoking oven racks and trays!

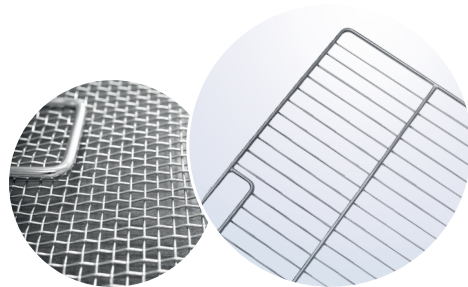

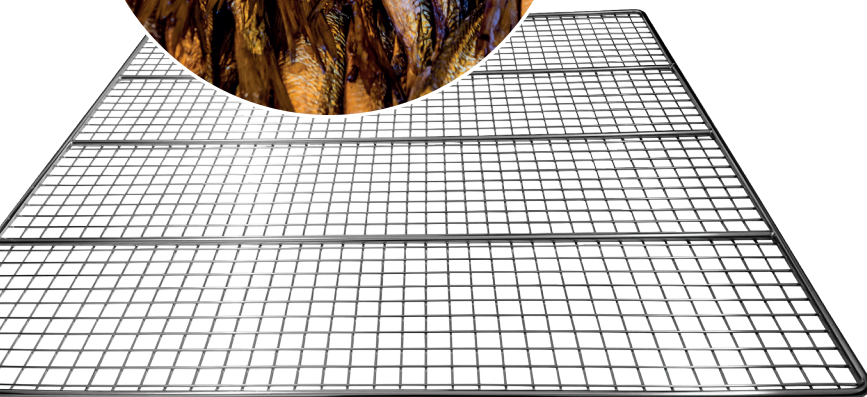

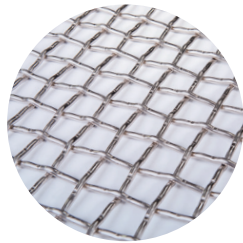

Multimesh UK provide bespoke smoking oven wire racks and trays to suit any size of industrial/commercial smoking oven. Multimesh's wire food trays and wire food racks are used for grilling, roasting and smoking – the possibilities are endless. We are fully equipped to produce different sized apertures, wire sizes, shelves and trays to suit your needs. Please call to discuss your requirements.

Superior quality stainless-steel food and smoking oven wire racks and trays are usually purchased in Stainless grade 304 but 316 is also available if requested. All our products are dishwasher safe and produced to ISO standards.

Many smoking houses use Multimesh to supply trays and racks for use in their smoking ovens. Our wire products are manufactured in the U.K. and are renowned for their reliability and quality.

The images show how versatile an oven wire rack can be. Every effort is made to ensure our products meet your precise needs.

We can arrange to have your smoking oven racks coated if you wish. Equally, we can recommend a suitable coating company for you.
